

Changes to 2012 H2 Chemistry A Level Question Paper

Dear students,

The TYS you have purchased is based on the 9647 (old) syllabus. You will be sitting for the 9729 (new) syllabus papers. This document will instruct you on the changes you need to make to the TYS questions.

The Planning question for the 9729 syllabus will be in the Paper 4 (Practical).

Some concepts are no longer tested in the 9729 syllabus and the values used for some calculations are now different (e.g. molar volume at s.t.p.) which will affect your choice of the answers.

You are advised to **make the changes** on your question papers **before you attempt it**. Do inform your tutors if you notice any differences which were not highlighted in this document.

Paper 1

4 Amend options

- B It is in **Group 2** of the Periodic Table.
- C It is in **Group 13** of the Periodic Table.

16 Not in syllabus

17 Amend options

- A **Group 1**
- B **Group 2**
- C **Group 17**

18 Not in syllabus

27 Not in syllabus

34 Option 3 not in syllabus

35 Option 3 not in syllabus.

Use the following equation as replacement for option 3:

Paper 2

No amendments

Paper 3
